CHARITY IT LEADERS CONFERENCE 2018

10 -12 October 2018

We are Charity IT Leaders

We facilitate professional networking, share expert knowledge and support the development of the current and future generations of technology champions and leaders. We do this to help charities unlock the potential of data, digital and technology, enabling them to transform their organisations and the sector.

Connected leaders

Connect, collaborate and share knowledge, stories and learnings with your peers

Expert leaders

Master the latest technical, functional and strategic knowledge to succeed in the 21st century organisation

Talented leaders

Work with subject matter experts and professional coaches to hone your leadership, people and business skills

AGENDA

The annual Charity IT Leaders Conference is back for another year and we have an action packed agenda in store that's better than ever! This year's conference will be held at Whittlebury Hall Hotel, Towcester, between Thursday 11 and Friday 12 October 2018.

On Wednesday 10 October, before the conference, we have a very special "gamified" masterclass run by Amazon Web Services. Join a small transformation team as it embarks on a simulated cloud migration journey, making key strategic decisions and tracking their impact along the way!

This year, we have a dual-tracked programme on the first day of the main event. On the Talented Leaders track, hear from distinguished speakers on how charities have made change with technology and innovation, meet the suppliers and explore special interest areas with other IT leaders in our networking session.

Meanwhile, our Expert Leaders: GDPR track examines the 'post-GDPR implementation' world. How can I embed awareness? How do I maintain momentum? Have I missed anything? Delve into these topics and more in a variety of dedicated GDPR sessions.

WEDNESDAY 10 OCTOBER

2:30pm Welcome

3pm The AWS Cloud Journey Simulation Workshop

AWS Advisory Services

We lead a small group of Charity IT leaders members team through a cloud journey exercise to bring exposure to key decisions points during the first 2 years of your cloud journey. Targeted towards executive leaders, CIOs, IT Directors and Heads of IT, the workshop framework helps you guide your organisation along an experiential journey.

The group will read a cloud case study and begin to make strategic investment decisions relating to the needs of the business. Decisions will have an impact on the group's score. Real life organisational situations and lessons learned will be addressed during the workshop.

7pm Free time

8pm Members' Dinner

THURSDAY 11 OCTOBER
