## Who we are

CITL is the leading digital technology networking group for the UK charity and not-for-profit sector. As a charity ourselves, we understand the pressures and challenges faced by our members, and we are committed to providing the support and resources they need to achieve their goals.

Since 2000, our mission has been to make charities more efficient and effective by using the power of technology and digital as a key driver of business change and service delivery.

Our vision is to drive excellence and innovation, and to ensure that our sector, and digital technology celebrate diversity and do all we can to remove barriers to entry for minority voices and communities. We aim to be the trusted voice of our sector, and to support the digital technology leaders of today and the future in delivering vital outcomes for people, animals, the environment and society.

*"As a technology leader, I've discovered a wealth of shared experience from peers from other charities, which is actively shared. Members reach out to the group seeking information and guidance on technology solutions, platforms or things to watch out for when embarking on new projects. There is also the opportunity to meet members face to face and virtually in the annual conference, virtual meetings and webinars through which members can share and discuss topics of interest. I would therefore strongly recommend CITL participation to any Charity wanting to benefit through collaboration and knowledge sharing."*

# An exciting opportunity

We have recently appointed a new Chair of Trustees and we are also looking to strengthen our current governance function by appointing our first ever Clerk to the Board of Trustees. The Clerk will support the changes we have made to our governance processes over the last five years, and will enable us to maintain excellent governance standards and meet our legal and regulatory requirements.

In 2019 we began an ambitious change programme to transform the way Charity IT Leaders functions, operates and delivers its goals. We employed staff, reducing our dependence on volunteers. We reviewed and revised our governance model, and ensured that we identified and filled the skills gaps within our Board. We revised our strategy and our delivery model to reflect changing needs within our membership, and a changing workplace model. We built our internal capability with a new CRM system, and brought our admin functions back in-house to improve our member and sponsor journeys.

We are poised at a pivotal point in our development as an organisation. We have a unique opportunity to use our credibility, authority and voice to advocate for the sector and to speak for our members and become the engine for the change that the sector needs.

In addition to appointing a new Chair of Trustees, we are recruiting a Clerk to the Board of Trustees; a new role that will support our trustees, and ensure that we are achieving the highest standards of governance. We're looking for someone with excellent admin and clerical skills, and an understanding of charity governance specifically. If you're looking for a new clerking role, or to increase your portfolio of clerking activities, and feel you have what we're looking for, please get in touch.

## Other commitments

- There may be other occasions throughout the year when we will ask you to carry out actions for CITL, but we will give you as much notice as possible of these.

## Hours and remuneration

We anticipate that it will take around 100 hours to deliver the key responsibilities of this role, but we will review this with the postholder once they are in place. The starting salary for this role is £14.50 per hour. We will review this for an exceptional candidate.
